April 9, 1993

Dear Mr. Weisberg,

I'd like to thank you once again for your patience and generosity yesterday. I hope that the book by Caroline Kennedy that I have enclosed is the one you were referring to.

I am very excited at the prospect of examining some of the documents you obtained through the Freedom of Information Act. I hope to be able to take you up on your generous offer to do so within the next month.

In addition to thanking you for your time and ordering several books, I have one other reason for writing to you. Accompanying me next month to Washington D.C. is my uncle, Dr. Chris Clarke. Dr. Clarke is a clinical psychologist who has been living in Australia for most of the past 25 years. In 1965, or therabouts, he wrote an artice for the New Zealand Monthly Review on the Kennedy Assassination. His article was greatly influenced by your work. Shortly thereafter, he did a book review, for the same journal, on Thomas G. Buchannan's, "Who killed Kennedy?"

Dr. Clarke's area of expertise is hypnosis. He has written a book and numerous articles in scholarly publications on the subject. From his studies into post-hypnotic suggestion in the highly-hypnotizable, he has been led to speculations about the possible use of hypnosis as a means of behavioral control in individuals linked to the assassinations of Robert Kennedy, JFK and others. My uncle would very much like to meet with you.

I am looking forward to receiving Whitewash Vols. II—IV, and Postmortem. I will be writing you once again in the near future, as soon

as I have had time to consider some of the disconcerting things you told me in our 8 April conversation.

Sincerely,

Jim Eisenberg
